This workshop will cover the latest developments in the assessment of behavioral, social, and clinical aspects of children's functioning. It will be based on Dr. Jerome Sattler's latest book "Foundations of Behavioral, Social, and Clinical Assessment of Children" Sixth Edition. Topics will include bullying, cyberbullying, sports-related concussions, executive functions, LD, ADHD, autism spectrum disorders, other disabilities, functional behavioral assessment, and clinical assessment techniques and instruments. Attention will be given to *DSM-5*. Each participant will receive a copy of "Foundations of Behavioral, Social, and Clinical Assessment of Children, Sixth Edition" and its accompanying Resource Guide. The Resource Guide contains numerous checklists, forms, and semi-structured interviews related to the assessment of children with special needs and to children who are at risk. The Resource Guide also contains an extensive list of suggestions for parents and teachers for helping children with special needs and for children affected by bullying and cyberbullying.

Participants will learn about interviewing, observations, new editions of assessment instruments related to behavioral and personality assessment, and new informal procedures useful for assessment of children

Participants will also learn about *DSM-5* and autism spectrum disorders, learning disabilities, ADHD, intellectual disability, and other disabilities. In addition, there will be coverage of bullying and cyberbullying, traumatic brain injury and sports-related concussions, executive functions, and functional behavioral assessment.

Participants will learn about instructional and behavioral support strategies for use with parents and teachers of children with special needs
